The Dog House

Your business card is a tiny brochure you hand out every day. View it as a marketing opportunity and take advantage of it. Give your card a purpose. Turn it into a bookmark, an event ticket, a note card, scratch card, or even a flash drive. These Dog House business cards are to be handed out in bunches so that clients can pass them on as referral cards. Make your business card a conversation piece and your business will stand out of the crowd.
